GENERAL RIDER PROTOCOLS

• All 128BC/The Grid services will be fare-free until further notice. We are working on developing contact-free methods of fare payment that will be safe for our riders and operators.

• If telework is an option, consider staying home.

• If you are ill, definitely stay home. Your Driver cannot offer a seat on the shuttle to anyone clearly displaying COVID-19 symptoms, including repeated coughing, difficulty breathing, blue lips or face, repeated shaking, or vomiting.

• Wear a mask to protect those around you, including our drivers and other shuttle riders. You must wear a mask even if you feel healthy, as those with COVID-19 may experience little to no symptoms while still shedding infectious respiratory droplets.

• Make sure your mask fits properly. Your mask should fit snugly over the bridge of your nose and extend down under your chin, covering your mouth and nose completely.

• Do not let your mask hang below your nose, and do not wear it around your neck. If you need to remove your mask, take it off completely and place it into a clean bag or container, isolated from other items. Clean masks are more effective.

• Do not eat or drink in the waiting area or on the shuttle, as this would require you to remove or compromise your mask.

• Quiet is Kind. Help reduce the spread of COVID-19 by minimizing conversation in waiting areas & on the shuttle. Talking less, talking more quietly, or not talking at all limit the production of droplets & aerosols that spread the virus.

• Wash your hands frequently throughout the day. Hand sanitizer is available inside the entrance of each shuttle.
MORNING PROTOCOLS

- Vox on Two riders do not need to request a ride in the morning or evening. Just show up.
- Arrive at least 5 minutes early to the shuttle waiting area. Give yourself plenty of time so that you don’t have to rush.
- In order to ride the shuttle, you need to show your red Vox on Two shuttle ID, which you can obtain from the Vox on Two management office.
- Maintain at least a 6-foot distance from other waiting riders. For reference, six feet is a little more than the length of a bicycle and a little less than the length of a full-size bed.
- Do not approach the bus until the driver opens the door. Once the driver opens the door, approach the bus one at a time, and exercise patience to avoid crowding other riders.
- Have your ID ready to show the driver before you enter the shuttle. If possible, free it of any coverings or encasements so your driver can more easily see it through the partition.
- Unless instructed otherwise by the driver, go immediately to the lowest-numbered available seat, as far to the back of the shuttle as possible. This will ensure that seats further forward are available to riders boarding after you, reducing potential interactions or even collisions in the aisles.
- Do not tamper with the windows marked “cracked for health & safety protocols.” Specific windows must remain open to maximize air turnover.
- Let the riders in front of you exit the bus first when the shuttle pulls into the station. The rider in the highest numbered seat (closest to the front) should exit first.
- Do not stand up until it’s your turn to exit. Please exercise patience by staying in your seat until it is your turn to exit the vehicle.
- Allow more than 6 feet of space in the aisle when following others off the vehicle.
